MC Brainpower Continues to Claim His Spot in the Hip Hop World with Release of "Animal Sauvage"

Los Angeles, California - The Equalizer 2, starring actor Denzel Washington, is expected to be the hottest movie of the summer. The new music from the thriller is starting to make its own noise, as well. The World Song Network is releasing a new, hot single "Animal Sauvage" from international powerhouse, Brainpower. With "Animal Sauvage", [Brainpower](#), based in Amsterdam, takes the listeners on a hip hop journey through a high-impact, techno world. "[Animal Sauvage](#)", which is featured in the film, is now available on all digital platforms.

Brainpower's "Animal Sauvage" features [Stix](#), [Pitcho](#) and [Pharoahe Monch](#). The song is a bilingual, international hip-hop/rock mashup representing Amsterdam, Holland, Brussels, Los Angeles, and New York. [Jabari Ali](#), music supervisor for The Equalizer 2, saw Brainpower as a natural fit to the storyline of the film. "I respect the talent of Brainpower as an artist, songwriter and producer. This song tremendously enhances the story telling for the film," says Ali. Brainpower is a pioneering bilingual triple threat from Amsterdam, who has sold well over a million records as an artist/songwriter. He was the first hip hop artist to win the MTV Europe Music Awards for Best Dutch Act; and his Youtube channel has recently crossed the 10 million views mark. "I am humbled to be a part of a major blockbuster like The Equalizer 2. I have been a Denzel Washington fan all of my life, so this is just crazy! And I love Antoine Fuqua's body of work," says Brainpower.

Brainpower is a part of the World Song Network (WSN), which is an independent "artist centric" digital platform based in downtown Los Angeles. WSN utilizes film, television and multimedia advertising campaigns to build independent artists' brands and partnerships. The network features exciting and influential new artists of today, along with some of the most highly acclaimed classic artists of yesterday. WSN has placed hundreds of songs in blockbuster films and top rated TV shows. Other WSN artists include Whitney Houston, Norah Jones, Frank Sinatra and Ziggy Marley.

In the The Equalizer 2, Denzel Washington returns to one of his signature roles in the first sequel of his career. Robert McCall serves an unflinching justice for the exploited and oppressed - but how far will he go when that is someone he loves? The Equalizer 2 hits theaters on July 20th.
